PRODUCT INFORMATION

MOBILE ANTENNA KIT

The perfect auxiliary equipment for mobile applications. The kit consists of a stand (extendable to 2.9 meters), one UMTS/3G Outdoor Antenna, a set of 5, 10, and 15 meter connector cables and a cushioned carrier bag. This set is ideal for changing locations where quick and easy UMTS/3G reception must be provided, e.g. at trade fairs, road shows, for video streams or the like.
